U.S. dialysis metrics:

Volume: Total U.S. dialysis treatments for the fourth quarter of 2019 were 7,681,462, or an average of 96,744 treatments per day, representing a per day increase of 1.7% over the fourth quarter of 2018. Normalized non-acquired treatment growth in the fourth quarter of 2019 as compared to the fourth quarter of 2018 was 2.1%.

	Three months ended		Quarter change	Year ended		Annual change
	December 31, 2019	September 30, 2019		December 31, 2019	December 31, 2018	
Per treatment metrics:						
Revenue	\$ 348.31	\$ 349.41	\$ (1.10)	\$ 349.02	\$ 350.47	\$ (1.45)
Patient care costs	\$ 237.44	\$ 236.32	\$ 1.12	\$ 239.27	\$ 247.32	\$ (8.05)
General and administrative	\$ 27.27	\$ 30.63	\$ (3.36)	\$ 28.41	\$ 28.40	\$ 0.01

Primary drivers of the changes in the table above are as follows:

Revenue: The quarter change was primarily due to lower calcimimetics revenue. The annual change was primarily due to lower calcimimetics revenue and was also negatively impacted by additional Medicare bad debt revenue recognized in 2018, partially offset by an increase in Medicare rates.

Patient care costs: The quarter change was primarily due to higher direct center operating expenses and medical supply costs, partially offset by lower pharmaceutical costs. The annual change was primarily due to lower pharmaceutical costs, partially offset by higher benefit costs and direct center operating expenses.

General and administrative: The quarter change was primarily due to lower compensation expense. The annual change was primarily due to higher compensation expenses, partially offset by lower advocacy costs.

Certain items impacting the quarter and year:

Our effective tax rate for the fourth quarter and year ended December 31, 2019 benefited from a decrease in our estimated state tax rate.

Center activity: As of December 31, 2019, we provided dialysis services to a total of approximately 235,500 patients at 3,012 outpatient dialysis centers, of which 2,753 centers were located in the United States and 259 centers were located in ten countries outside of the United States. During the fourth quarter of 2019, we opened a total of 31 new dialysis centers and closed 14 dialysis centers in the United States. In addition, we opened three new dialysis centers and acquired seven dialysis centers outside of the United States during the fourth quarter of 2019.

Outlook:

The following forward-looking measures and the underlying assumptions involve significant risks and uncertainties, including those described below, and actual results may vary significantly from these current forward-looking measures. We do not provide guidance for diluted net income from continuing operations per share attributable to DaVita Inc., effective tax rate on income from continuing operations or free cash flow from continuing operations on a basis consistent with United States generally accepted accounting principles (GAAP) nor a reconciliation of forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures on a forward-looking basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These non-GAAP financial measures do not include certain items, including foreign currency fluctuations, any of which may be significant. The guidance for effective income tax rate on

adjusted income from continuing operations attributable to DaVita Inc. also excludes the amount of third party owners' income and related taxes attributable to non-tax paying entities.

DaVita Inc. and its representatives may from time to time make written and oral forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 ("PSLRA"), including statements in this release, filings with the Securities and Exchange Commission ("SEC"), reports to stockholders and in meetings with investors and analysts. All such statements in this release, during the related presentation or other meetings, other than statements of historical fact, are forward-looking statements and as such are intended to be covered by the safe harbor for "forward-looking statements" provided by the PSLRA. Without limiting the foregoing, statements including the words "expect," "intend," "will," "plan," "anticipate," "believe," "we are confident that," "forecast," "guidance," "outlook," "goals," and similar expressions are intended to identify forward-looking statements.

The forward-looking statements should be considered in light of these risks and uncertainties. All forward-looking statements in this release are based solely on information available to us on the date of this release. We undertake no obligation to publicly update or revise any of our guidance, the assessment of the underlying assumptions or other forward-looking statements, whether as a result of changed circumstances, new information, future events or otherwise.

These forward-looking statements could include but are not limited to statements related to our guidance and expectations for future periods and the assumptions underlying any such projections.

Our actual results and other events could differ materially from any forward-looking statements due to numerous factors that involve substantial known and unknown risks and uncertainties. These risks and uncertainties include, among other things:

- the concentration of profits generated by higher-paying commercial payor plans for which there is continued downward pressure on average realized payment rates, and a reduction in the number of patients under such plans, including as a result of restrictions or prohibitions on the use and/or availability of charitable premium assistance, which may result in the loss of revenues or patients, or our making incorrect assumptions about how our patients will respond to any change in financial assistance from charitable organizations;*
- the extent to which the ongoing implementation of healthcare reform, or changes in or new legislation, regulations or guidance, enforcement thereof or related litigation; the extent to which such developments result in a reduction in coverage or reimbursement rates for our services, a reduction in the number of patients enrolled in higher-paying commercial plans, or other material impacts to our business; or our making incorrect assumptions about how our patients will respond to any such developments;*
- a reduction in government payment rates under the Medicare End Stage Renal Disease program or other government-based programs and the impact of the Medicare Advantage benchmark structure;*
- risks arising from potential and proposed federal and/or state legislation, regulation and ballot, executive action or other initiatives, including such initiatives related to healthcare and/or labor matters;*
- the impact of the political environment and related developments on the current healthcare marketplace and on our business, including with respect to the future of the Affordable Care Act, the exchanges and many other core aspects of the current health care marketplace;*
- changes in pharmaceutical practice patterns, reimbursement and payment policies and processes, or pharmaceutical pricing, including with respect to calcimimetics;*
- legal and compliance risks, such as our continued compliance with complex government regulations;*
- continued increased competition from dialysis providers and others, and other potential marketplace changes;*
- our ability to maintain contracts with physician medical directors, changing affiliation models for physicians, and the emergence of new models of care introduced by the government or private sector that may erode our patient base and reimbursement rates, such as accountable care organizations, independent practice associations and integrated delivery systems;*
- our ability to complete acquisitions, mergers or dispositions that we might announce or be considering, on terms favorable to us or at all, or to integrate and successfully operate any business we may acquire or have acquired, or to successfully expand our operations and services in markets outside the United States, or to businesses outside of dialysis;*
- uncertainties related to potential payments and/or adjustments under certain provisions of the equity purchase agreement for the sale of our DaVita Medical Group business, such as post-closing adjustments and indemnification obligations;*

- noncompliance by us or our business associates with any privacy or security laws or any security breach by us or a third party involving the misappropriation, loss or other unauthorized use or disclosure of confidential information;
- the variability of our cash flows; the risk that we may not be able to generate sufficient cash in the future to service our indebtedness or to fund our other liquidity needs; and the risk that we may not be able to refinance our indebtedness as it becomes due, on terms favorable to us or at all;
- factors that may impact our ability to repurchase stock under our stock repurchase program and the timing of any such stock repurchases, as well as our use of a considerable amount of available funds to repurchase stock;
- risks arising from the use of accounting estimates, judgments and interpretations in our financial statements;
- impairment of our goodwill, investments or other assets;
- uncertainties related to our use of the proceeds from the DaVita Medical Group sale transaction and other available funds, including external financing and cash flow from operations, which may be or have been used in ways that we cannot assure will improve our results of operations or enhance the value of our common stock; and
- uncertainties associated with the other risk factors set forth in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2019 as updated by our Quarterly Report on Form 10-Q for the quarter ended September 30, 2019, and the other risks and uncertainties discussed in any subsequent reports that we file or furnish with SEC from time to time.

The financial information presented in this release is unaudited and is subject to change as a result of subsequent events or adjustments, if any, arising prior to the filing of the Company's Annual Report on Form 10-K for the year ended December 31, 2019.

The reported balance sheet amounts exclude DMG debt which was classified as held for sale liabilities as of December 31, 2018.
- (4) The reported total debt and net debt, net of cash and cash equivalents, excludes DMG cash and debt classified as held for sale assets and liabilities, respectively, as of December 31, 2018.
- (5) Adjusted operating income margin is a calculation of adjusted operating income divided by consolidated revenues.

DAVITA INC. SUPPLEMENTAL FINANCIAL DATA-continued (unaudited) (dollars in thousands)

Note 1: Calculation of the Leverage Ratio

Under our new senior secured credit facilities (the New Credit Agreement) dated August 12, 2019 and our prior senior secured credit facilities (the Prior Credit Agreement), the leverage ratio is defined as all funded debt plus the face amount of all letters of credit issued, minus cash and cash equivalents, not to exceed certain limits under the New Credit Agreement, including short-term investments, divided by "Consolidated EBITDA". The leverage ratio determines the interest rate margin payable by the Company for its new Term Loan A and new revolving line of credit under the New Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The following leverage ratios were calculated using "Consolidated EBITDA" and "Consolidated net debt" as defined in the credit agreement that was in effect at the end of each period. The calculation below is based on the last twelve months of "Consolidated EBITDA", as of the end of the reported period and pro forma for routine acquisitions that occurred during the period. The Company's management believes the presentation of "Consolidated EBITDA" is useful to users to enhance their understanding of the Company's leverage ratio under its credit agreement in effect at that time. The leverage ratio calculated by the Company is a non-GAAP measure and should not be considered a substitute for debt to net income attributable to DaVita Inc., net income attributable to DaVita Inc. or total debt as determined in accordance with United States generally accepted accounting principles (GAAP). The Company's calculation of its leverage ratio might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures by other companies.

- (1) The reported net income for December 31, 2019 and September 30, 2019 is our reported net income from continuing operations attributable to DaVita Inc. as the New Credit Agreement requires divestitures to be reflected on a proforma basis, as such DMG is excluded from our leverage ratio calculation. The reported net income for December 31, 2018 is our reported net income attributable to DaVita Inc.
- (2) The reported total debt amounts at December 31, 2019, September 30, 2019 and December 31, 2018, exclude \$72,840, \$75,979 and \$52,000, respectively, of debt discount associated with the Term Loan B and other deferred financing costs.
- (3) Excluding DMG's-physician owned entities' cash for the twelve months ended December 31, 2018 and amounts not readily convertible to cash related to the Company's non-qualified deferred compensation plans for all periods presented. The Company's New Credit Agreement limits the amount deducted for cash and cash equivalents to the lesser of all unrestricted cash and cash equivalents of the Company or \$750,000.

RECONCILIATIONS FOR NON-GAAP MEASURES
(unaudited)

Note on Non-GAAP Financial Measures

As used in this press release, the term "adjusted" refers to non-GAAP measures as follows, each as reconciled to its most comparable GAAP measure as presented in the non-GAAP reconciliations in the notes to this press release: (i) for income measures, the term "adjusted" refers to operating performance measures that exclude certain items such as impairment charges, (gain) loss on ownership changes, restructuring charges, debt prepayment charges and gains and charges associated with settlements; and (ii) the term "effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc." represents the Company's effective tax rate excluding applicable non-GAAP items and noncontrolling owners' income, which primarily relates to non-tax paying entities.

These non-GAAP or "adjusted" measures are presented because management believes these measures are useful adjuncts to GAAP results. However, these non-GAAP measures should not be considered alternatives to the corresponding measures determined under GAAP.

Specifically, management uses adjusted operating income, adjusted net income from continuing operations attributable to DaVita Inc. and adjusted diluted net income from continuing operations per share attributable to DaVita Inc. to compare and evaluate our performance period over period and relative to competitors, to analyze the underlying trends in our business, to establish operational budgets and forecasts and for incentive compensation purposes. We believe these non-GAAP measures also are useful to investors and analysts in evaluating our performance over time and relative to competitors, as well as in analyzing the underlying trends in our business. Furthermore, we believe these presentations enhance a user's understanding of our normal consolidated operating income by excluding certain items which we do not believe are indicative of our ordinary results of operations. As a result, adjusting for these amounts allows for comparison to our normalized prior period results.

In addition, the effective income tax rate on income from continuing operations attributable to DaVita Inc. excludes noncontrolling owners' income, which primarily relates to non-tax paying entities.

The effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc. excludes noncontrolling owners' income and certain non-deductible and other charges which we do not believe are indicative of our ordinary results. Accordingly, we believe these adjusted effective income tax rates are useful to management, investors and analysts in evaluating our performance and establishing expectations for income taxes incurred on our ordinary results attributable to DaVita Inc.

Finally, under our new definition, free cash flow from continuing operations represents net cash provided by operating activities from continuing operations less distributions to noncontrolling interests and all capital expenditures (including development capital expenditures, routine maintenance and information technology); plus contributions from noncontrolling interests and sale leaseback proceeds. Management uses this measure to assess our ability to fund acquisitions and meet our debt service obligations and we believe this measure is equally useful to investors and analysts as an adjunct to cash flows from operating activities from continuing operations and other measures under GAAP.

It is important to bear in mind that these non-GAAP "adjusted" measures are not measures of financial performance or liquidity under GAAP and should not be considered in isolation from, nor as substitutes for, their most comparable GAAP measures.

The following Notes 2 through 5 provide reconciliations of the non-GAAP financial measures presented in this press release to their most comparable GAAP measures.
