Primary drivers of the changes in the table above were as follows:

Revenue: The quarter change was primarily due to a decrease in commercial revenue per treatment, unfavorable changes in government payor mix and a decline in calcimimetics revenue per treatment, partially offset by increases in inpatient dialysis service revenue and Medicare rates due to the temporary suspension of Medicare sequestration. The year to date change was primarily due to favorable changes in government and commercial revenue per treatment, including an increase in Medicare rates due to the base rate increase in 2020 and the temporary suspension of Medicare sequestration, and an increase in inpatient dialysis services revenue, partially offset by a decline in calcimimetics revenue per treatment.

Patient care costs: The quarter change was primarily due to decreases in COVID-19-related costs, including compensation expense, and pharmaceutical intensity, partially offset by increases in health benefit expenses and other direct dialysis center operating expenses. The year to date change was primarily due to decreases in pharmaceutical unit costs, other direct dialysis center operating expenses, and health benefit expenses, partially offset by an increase in labor costs and COVID-19-related costs, including compensation expense.

General and administrative: The quarter change was primarily due to increases in advocacy costs, as described below, contributions to our charitable foundation and compensation expense. The year to date change was primarily due to increases in advocacy costs, as described below, contributions to our charitable foundation and compensation expense including costs related to COVID-19. These increases were partially offset by decreases in travel expenses, long-term incentive compensation expense and health benefit expenses.

#### Certain items impacting the quarter:

Share repurchases: The following table summarizes our common stock repurchases during the three months ended September 30, 2020.

**Center activity:** As of September 30, 2020, we provided dialysis services to a total of approximately 238,200 patients at 3,100 outpatient dialysis centers, of which 2,809 centers were located in the United States and 291 centers were located in nine countries outside of the United States. During the third quarter of 2020, we opened a total of 17 new dialysis centers, acquired five dialysis centers and closed eight dialysis centers in the United States. We also acquired eleven dialysis centers, opened one new dialysis center and sold or closed eight dialysis centers outside of the United States during the third quarter of 2020.

#### Outlook:

The following forward-looking measures and the underlying assumptions involve significant known and unknown risks and uncertainties, including those described below, and actual results may vary materially from these forward-looking measures. In particular, the widespread impact of the COVID-19 pandemic continues to generate significant risk and uncertainty, and as a result, our future results could vary materially from the guidance provided below. We do not provide guidance for diluted net income from continuing operations per share attributable to DaVita Inc., effective income tax rate on income from continuing operations or free cash flow from continuing operations on a basis consistent with United States generally accepted accounting principles (GAAP) nor a reconciliation of forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures on a forward-looking basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These non-GAAP financial measures do not include certain items, including loss on changes in ownership interests, accruals for legal matters, refinancing charges and foreign currency fluctuations, which may be significant. The guidance for our effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc. also excludes the amount of third party owners' income and related taxes attributable to non-tax paying entities.

DaVita Inc. and its representatives may from time to time make written and oral forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 ("PSLRA"), including statements in this release, filings with the Securities and Exchange Commission ("SEC"), reports to stockholders and in meetings with investors and analysts. All statements in this release, during the related presentation or other meetings, other than statements of historical fact, are forward-looking statements and as such are intended to be covered by the safe harbor for "forward-looking statements" provided by the PSLRA. These forward-looking statements could include, among other things, DaVita's response to and the expected future impacts of COVID-19, including statements about our balance sheet and liquidity, our expenses, revenues, billings and collections and future results, potential need, ability or willingness to use any funds under the CARES Act or other government programs, availability or cost of supplies, treatment volumes, mix expectation, such as the percentage or number of patients under commercial insurance, and overall impact on our patients, as well as other statements regarding our future operations, financial condition and prospects, government and commercial payment rates, our ongoing stock repurchase program, and statements related to our guidance and expectations for future periods and the assumptions underlying any such projections. Without limiting the foregoing, statements including the words "expect," "intend," "will," "could," "plan," "anticipate," "believe," and similar expressions are intended to identify forward-looking statements. These forward-looking statements are based on DaVita's current expectations and are based solely on information available as of the date of this release. DaVita undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of changed circumstances, new information, future events or otherwise, except as may be required by law. Actual future events and results could differ materially from any forward-looking statements due to numerous factors that involve substantial known and unknown risks and uncertainties. These risks and uncertainties include, among other things:

- the continuing impact of the dynamic and evolving COVID-19 pandemic, including, without limitation, on our patients, teammates, physician partners, suppliers, business, operations, reputation, financial condition and results of operations, the government's response to the COVID-19 pandemic, and the consequences of an extended economic downturn resulting from the impacts of COVID-19, such as a potential negative impact on our commercial mix, any of which may also have the effect of heightening many of the other risks and uncertainties discussed below;
- our need, ability and willingness to utilize any funds received under the CARES Act or other government programs, and the consequences of our decisions with respect thereto;
- the concentration of profits generated by higher-paying commercial payor plans for which there is continued downward
  pressure on average realized payment rates, and a reduction in the number or percentage of our patients under such
  plans, including without limitation as a result of restrictions or prohibitions on the use and/or availability of charitable
  premium assistance, which may result in the loss of revenues or patients, or our making incorrect assumptions about how
  our patients will respond to any change in financial assistance from charitable organizations;
- noncompliance by us or our business associates with any privacy or security laws or any security breach by us or a third party involving the misappropriation, loss or other unauthorized use or disclosure of confidential information;
- the extent to which the ongoing implementation of healthcare reform, or changes in or new legislation, regulations or guidance, enforcement thereof or related litigation, result in a reduction in coverage or reimbursement rates for our services, a reduction in the number of patients enrolled in higher-paying commercial plans or that are enrolled in or select Medicare Advantage plans, or other material impacts to our business; or our making incorrect assumptions about how our patients will respond to any such developments;
- a reduction in government payment rates under the Medicare program or other government-based programs and the impact of the Medicare Advantage benchmark structure;
- risks arising from potential and proposed federal and/or state legislation, regulation, ballot, executive action or other initiatives, including such initiatives related to healthcare and/or labor matters, such as AB290 and Proposition 23 in California:
- the impact of the upcoming election cycle, the political environment and related developments on the current healthcare marketplace and on our business, including with respect to the future of the Affordable Care Act, the exchanges and many other core aspects of the current healthcare marketplace, as well as the composition of the U.S. Supreme Court;
- our ability to successfully implement our strategy with respect to home-based dialysis, including maintaining our existing business and further developing our capabilities in a complex and highly regulated environment;
- changes in pharmaceutical practice patterns, reimbursement and payment policies and processes, or pharmaceutical pricing, including with respect to calcimimetics;
- legal and compliance risks, such as our continued compliance with complex government regulations;
- continued increased competition from dialysis providers and others, and other potential marketplace changes;
- our ability to maintain contracts with physician medical directors, changing affiliation models for physicians, and the

emergence of new models of care introduced by the government or private sector that may erode our patient base and reimbursement rates, such as accountable care organizations, independent practice associations and integrated delivery systems:

- our ability to complete acquisitions, mergers or dispositions that we might announce or be considering, on terms favorable
  to us or at all, or to integrate and successfully operate any business we may acquire or have acquired, or to successfully
  expand our operations and services in markets outside the United States, or to businesses outside of dialysis;
- uncertainties related to potential payments and/or adjustments under certain provisions of the equity purchase agreement for the sale of our DaVita Medical Group (DMG) business, such as post-closing adjustments and indemnification obligations:
- the variability of our cash flows, including without limitation any extended billing or collections cycles; the risk that we may not be able to generate or access sufficient cash in the future to service our indebtedness or to fund our other liquidity needs; and the risk that we may not be able to refinance our indebtedness as it becomes due, on terms favorable to us or at all:
- factors that may impact our ability to repurchase stock under our stock repurchase program and the timing of any such stock repurchases, as well as our use of a considerable amount of available funds to repurchase stock;
- risks arising from the use of accounting estimates, judgments and interpretations in our financial statements;
- impairment of our goodwill, investments or other assets; and
- uncertainties associated with the other risk factors set forth in DaVita Inc.'s Annual Report on Form 10-K for the year ended December 31, 2019 and Quarterly Reports on Form 10-Q for the quarters endedMarch 31, 2020 and June 30, 2020, and the risks and uncertainties discussed in any subsequent reports that DaVita has filed or furnished with the SEC from time to time.

The financial information presented in this release is unaudited and is subject to change as a result of subsequent events or adjustments, if any, arising prior to the filing of the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2020.

- (1) These are non-GAAP financial measures. For a reconciliation of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, and for a definition of adjusted amounts, see attached reconciliation schedules.
- (2) General and administrative expenses includes certain corporate support, long-term incentive compensation, accruals for legal matters, advocacy costs and charitable contributions.
- (3) Adjusted operating income margin is adjusted operating income divided by consolidated revenues.
- (4) The reported operating income (loss) for the three months ended September 30, 2020, June 30, 2020 and September 30, 2019, include foreign currency (losses) gains of approximately \$(2.9), \$(3.7) and \$2.9, respectively, and approximately \$3.1 for the nine months ended September 30, 2020.
- (5) Normalized non-acquired treatment growth reflects year over year growth in treatment volume, adjusted to exclude acquisitions and other similar transactions, and further adjusted to normalize for the number and mix of treatment days in a given quarter versus the prior year quarter.
- (6) The debt amounts as of September 30, 2020, June 30, 2020 and September 30, 2019 presented exclude approximately \$80.9, \$85.1 and \$76.0, respectively, of debt discount and other deferred financing costs related to our senior secured credit facilities and senior notes in effect or outstanding at that time.

## DAVITA INC. SUPPLEMENTAL FINANCIAL DATA-continued (unaudited) (dollars in thousands)

### Note 1: Calculation of the Leverage Ratio

Under our senior secured credit facilities (the "Credit Agreement") dated August 12, 2019, the leverage ratio is defined as (a) all funded debt plus the face amount of all letters of credit issued, minus unrestricted cash and cash equivalents (including short-term investments) not to exceed \$750,000 divided by (b) "Consolidated EBITDA." The leverage ratio determines the interest rate margin payable by the Company for its Term Loan A and revolving line of credit under the Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The calculation below is based on the last twelve months of "Consolidated EBITDA," as of the end of the reported period and pro forma for acquisitions or divestitures that occurred during the period, and "Consolidated net debt" at the end of the reported period, each as defined in the Credit Agreement. The Company's management believes the presentation of "Consolidated EBITDA" is useful to investors to enhance their understanding of the Company's leverage ratio under its Credit Agreement. The leverage ratio calculated by the Company is a non-GAAP measure and should not be considered a substitute for the ratio of total debt to operating income, determined in accordance with GAAP. The Company's calculation of its leverage ratio might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures of other companies.

- (1) The net income measure presented is our net income from continuing operations attributable to DaVita Inc., since the Credit Agreement requires divestitures to be reflected on a pro forma basis for our leverage ratio calculation, and this measure of net income already excludes our discontinued operations divested.
- (2) The debt amounts as of September 30, 2020, June 30, 2020 and September 30, 2019 presented exclude approximately \$80,945, \$85,080 and \$75,979, respectively, of debt discount and other deferred financing costs related to our senior secured credit facilities and senior notes in effect at that time.
- (3) This excludes amounts not readily convertible to cash related to the Company's non-qualified deferred compensation plans for all periods presented. The Credit Agreement limits the amount deducted for cash and cash equivalents, including short-term investments, to the lesser of all unrestricted cash and cash equivalents of the Company or \$750,000.

### DAVITA INC. RECONCILIATIONS FOR NON-GAAP MEASURES (unaudited)

#### Note on Non-GAAP Financial Measures

As used in this press release, the term "adjusted" refers to non-GAAP measures as follows, each as reconciled to its most comparable GAAP measure as presented in the non-GAAP reconciliations in the notes to this press release: (i) for income measures, the term "adjusted" refers to operating performance measures that exclude certain items such as impairment charges, (gain) loss on ownership changes, restructuring charges, debt prepayment and refinancing charges and gains and charges associated with settlements; and (ii) the term "effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc." represents the Company's effective tax rate excluding applicable non-GAAP items and noncontrolling owners' income, which primarily relates to non-tax paying entities.

These non-GAAP or "adjusted" measures are presented because management believes these measures are useful adjuncts to GAAP results. However, these non-GAAP measures should not be considered alternatives to the corresponding measures determined under GAAP.

Specifically, management uses adjusted operating income, adjusted net income from continuing operations attributable to DaVita Inc. and adjusted diluted net income from continuing operations per share attributable to DaVita Inc. to compare and evaluate our performance period over period and relative to competitors, to analyze the underlying trends in our business, to establish operational budgets and forecasts and for incentive compensation purposes. We believe these non-GAAP measures also are useful to investors and analysts in evaluating our performance over time and relative to competitors, as well as in analyzing the underlying trends in our business. Furthermore, we believe these presentations enhance a user's understanding of our normal consolidated operating income by excluding certain items which we do not believe are indicative of our ordinary results of operations. As a result, adjusting for these amounts allows for comparison to our normalized prior period results.

In addition, the effective income tax rate on income from continuing operations attributable to DaVita Inc. excludes noncontrolling owners' income, which primarily relates to non-tax paying entities.

The effective income tax rate on adjusted income from continuing operations attributable to DaVita Inc. excludes noncontrolling owners' income and certain non-deductible and other charges which we do not believe are indicative of our ordinary results. Accordingly, we believe these adjusted effective income tax rates are useful to management, investors and analysts in evaluating our performance and establishing expectations for income taxes incurred on our ordinary results attributable to DaVita Inc.

Finally, under our definition, free cash flow from continuing operations represents net cash provided by operating activities from continuing operations less distributions to noncontrolling interests and all capital expenditures (including development capital expenditures, routine maintenance and information technology); plus contributions from noncontrolling interests and sale leaseback proceeds. Management uses this measure to assess our ability to fund acquisitions and meet our debt service obligations and we believe this measure is equally useful to investors and analysts as an adjunct to cash flows from operating activities from continuing operations and other measures under GAAP.

It is important to bear in mind that these non-GAAP "adjusted" measures are not measures of financial performance or liquidity under GAAP and should not be considered in isolation from, nor as substitutes for, their most comparable GAAP measures.

The following Notes 2 through 5 provide reconciliations of the non-GAAP financial measures presented in this press release to their most comparable GAAP measures.
