

How to get support during Hurricane Ida

Hurricane Ida made landfall nearly two weeks ago and battered Louisiana and Mississippi. Many continue to be without power, and flooding has made it impossible for first responders to get to certain areas.

DaVita's care teams across the region continue working hard to help keep their patients, themselves and their families safe. As part of this effort, we are coordinating with providers across the health care system, including other dialysis providers and hospitals, to help ensure continuity of care in areas where our centers have been affected.

Like all health care providers, a number of our centers in high-risk areas have been impacted. While the situation changes regularly, below is a list of centers that are currently affected. For the latest information, please call DaVita Guest Services at 1-800-400-8331. Please dial 9-1-1 if you are in need of urgent medical care or emergency help.
