The purchase price for the centers is \$320.5 million, subject to post-closing adjustments, payable by RenalAmerica in cash at closing. As part of the transaction, RenalAmerica will assume specified liabilities related to the centers and all other liabilities will be retained by DaVita. Completion of the transaction is subject to certain closing conditions, including consummation of DaVita's acquisition of Gambro Healthcare US, which we currently expect will take place during the next thirty to sixty days. Kent Thiry, Chairman and CEO of DaVita stated "Divesting units has been a difficult process. We are happy to have found such a high-quality executive team and primary shareholder to take care of our patients and teammates."

Nashville-based RenalAmerica was founded by its CEO, Michael Klein, who most recently served as a senior executive for Gambro Healthcare US. RenalAmerica has teamed with Welsh, Carson, Anderson & Stowe (WCAS), a private equity investor, to finance the acquisition of the centers.
