

DaVita Kidney Care Launches the First Ever Medicare Disease-Specific ACO

Thousands of Medicare Beneficiaries will Receive Integrated Kidney Care

DENVER, Oct. 7, 2015 [/PRNewswire/](#) -- In a step toward providing integrated care for all Medicare patients with kidney failure, [DaVita HealthCare Partners Inc.](#) (NYSE: DVA) announces the launch of End Stage Renal Disease (ESRD) Seamless Care Organizations (ESCOs) in conjunction with other dialysis organizations in select markets across the country.

ESRD patients are a uniquely vulnerable, chronically ill population who, in addition to having kidney failure, may also be frail, disabled, low income and are likely to suffer from other complex medical conditions.

The Centers for Medicare & Medicaid Services (CMS) recognizes that ESRD patients would benefit greatly from specialized integrated care. The ESCO model enables this specialized care and requires that participating dialysis providers like DaVita partner with nephrologists to take full accountability for the clinical and financial outcomes of patients participating in the program.

"ESRD patients are unique and the dialysis center is their natural medical home," said Dr. Stephen McMurray, vice president of clinical integrated care management services for DaVita. "We believe in the potential of the specialized ESRD care model to shape the delivery of care to chronically ill populations more broadly in the future."

DaVita, in conjunction with pioneering nephrologist and health system partners, began serving patients in this model on October 1, 2015 in Arizona, Florida, New Jersey and Pennsylvania.

"This is the beginning of a transformative model. Our goal is to partner with the government to create a long-term model that allows all patients to receive the gift of integrated care," said Javier Rodriguez, CEO for DaVita Kidney Care. "We are committed to this vision and are dedicated to being an innovative partner to make that vision a reality."

DaVita has proven experience in managing the full risk and care for broad populations across multiple geographies including specialized programs designed for ESRD patients and patients with other chronic needs. Additionally, DaVita is recognized as the clinical leader in two government quality programs, the CMS Dialysis Facility Compare Five-Star Rating System and the CMS ESRD Quality Incentive Program.
