

DaVita Kidney Care Launches the Only Medicare Disease-Specific ACO In Phoenix and Tucson, AZ

PHOENIX, Oct. 7, 2015 /[PRNewswire](#)/ -- In a step toward providing integrated care for all Medicare patients with kidney failure, [DaVita HealthCare Partners Inc.](#) (NYSE: DVA), with its partner provider organizations, announces the launch of an End Stage Renal Disease (ESRD) Seamless Care Organization (ESCO) in Phoenix and Tucson, AZ.

DaVita and Southwest Kidney Institute, along with Banner Health, a leading health care system and Pioneer ACO, have created this unique partnership – the first of its kind in the nation.

"We are excited to be the first in Arizona to bring the gift of true integrated kidney care to our patients," said Sean Graham, division vice president for DaVita. "Our joint venture with pioneering nephrologists and a leading health system will facilitate seamless care delivery resulting in better patient outcomes."

The ESCO is a kidney disease-specific accountable care organization (ACO) developed by the Centers for Medicare and Medicaid Services (CMS) that will allow kidney care providers to take accountability for the clinical and financial outcomes of ESRD patients.

"Value-based arrangements like ESCOs are not only the basis for more cost-effective health care, they also drive the best quality care for our members," said Dr. Nishant Anand, chief medical officer for Banner Health Network, Banner Health's accountable care organization. "Through this partnership, we believe patients will get the right care in the right setting and many crises can be averted or de-escalated, allowing a greater quality of life for those with ESRD."

The ESCO will leverage its access to the patient, its relationship with nephrologists and substantial clinical data to address the totality of each patient's healthcare needs inside and outside of the dialysis clinic.

"Southwest Kidney Institute is committed to high-quality, cost-effective population health. But most importantly, we want to provide care that enhances the individual patient experience and improves their quality of life," said Dr. Rajiv Poduval, President of Southwest Kidney Institute. "The ESCO platform and the unique opportunity to partner with two progressive health care organizations that share our vision, provide us with an opportunity to do both."

DaVita has proven experience in managing the full risk and care for broad populations across multiple geographies including specialized programs designed for ESRD patients and patients with other chronic needs. Additionally, DaVita is recognized as the clinical leader in two government quality programs, the CMS Dialysis Facility Compare Five-Star Rating System and the CMS ESRD Quality Incentive Program.
