

TORRANCE, Calif., May 10 [/PRNewswire/](#) -- Total Renal Care Holdings, Inc. (NYSE: TRL), today announced results for the quarter ended March 31, 2000. Revenues for the quarter were \$372 million. Earnings before interest, taxes, depreciation and amortization (EBITDA) were \$68 million and net income was \$3.8 million, or \$0.05 per share.

"I am pleased to report that the first quarter earnings results are in line with our projections," said Richard Whitney, the Company's CFO. "Our cash collections continue to be strong with \$389 million of cash being collected in the first quarter, resulting in a nine day reduction in days sales outstanding (DSO) for our continuing operations. Additionally, operating cash flow was \$61 million for the quarter and our cash balance increased by \$42 million to \$150 million at March 31, 2000."

Quarterly financial highlights include:

- Consolidated revenues for the quarter ended March 31, 2000 were \$372 million, included in the consolidated results were non-continental U.S. revenues of \$33 million. The Company previously announced the pending divestiture of its non-continental U.S. assets. Revenues from continental U.S. activities were \$339 million for the quarter.
- Continental U.S. dialysis revenue per treatment was \$247.01 as compared to \$244.50 in the fourth quarter, or a 1% increase.
- Total continental U.S. treatments for the quarter were 1,318,000. Non-acquired treatment growth was 6.2%, which included same center treatment growth of 5%.
- Continental U.S. DSO as of quarter end was 83 days. This represents a nine-day improvement and was driven entirely by our improved cash collection efforts. Excluding the suspended Florida Medicare laboratory receivables of \$34 million, DSO was 75 days.
- Net cash provided by operations was \$61 million in the quarter, which included a net decrease of \$24 million in accounts receivable, a tax refund of \$22 million, and a reduction in accounts payable and current liabilities of approximately \$24 million. Routine capital asset purchases and growth capital expenditures were approximately \$17 million.
- The Company reduced its outstanding debt obligations by approximately \$15 million with the proceeds (cash and \$3 million of debt assumption) from the sale of assets in the continental U.S. Net debt (total debt minus cash) was reduced by approximately \$58 million to \$1.29 billion at the end of the quarter.
- At March 31, 2000 we operated 484 outpatient centers in the continental U.S. serving 40,000 patients. During the quarter, we opened 5 de novo dialysis facilities, added 1 managed unit, sold 3 centers and closed 7 under-performing centers. Included in our continental facility count are 4,200 patients in 52 centers under management. We also provide acute hemodialysis services to inpatients at 317 continental U.S. hospitals.

"We achieved strong improvement in the first quarter. Doing so required great effort. On behalf of our shareholders I want to thank the TRC team," said Kent Thiry, Chairman and CEO.
